Porta-Stove™ Hot Plates

Models: ☐ CP-1A ☐ CP-2A ☐ CHP-1A

PRODUCT: QUANTITY: ITEM#:

Bid Specifications

Models CP-1A and **CP-2A** are constructed of heavy-duty stainless steel, with either single or twin flat sided heating elements. Units are equipped with an infinite control for each heating element and feature a heavy-duty auto-cycling pilot light. Units have cooling vents on all sides for proper ventilation. Units are equipped with a cord and plug which exits from the rear right-hand corner. A removable aluminum splash-plate is located under each of the heating elements allowing for easy cleaning. CP-2A Model offers 1800W of power, 1250W and 550W burner separation.

Model CHP-1A is constructed of 20 ga. heavy-duty stainless steel with a single electrical heating element. The element is 7 1/2" in diameter and features a flat cooking surface. The element sits on a heavy-duty structure which enables the support of large stockpots. This special support provides the added necessary ventilation for stockpot cooking. Cooking surface element features a heavy-duty aluminum splash plate and is easily removed for cleaning. A full 7 1/8" body allows a higher cooking height. Unit is equipped with 1" adjustable legs. Body Construction if fully ventilated. Cord and plug exit in the right rear corner for out-of-the-way operation.

Reliability Backed by APW Wyott's Warranty

- APW Wyott's Hot Plates are backed by a 1 year parts & labor warranty.
- Hot Plates are Certified by the following agencies:
